

Secure Data, Document Performance with Leading-Edge Compliance Services

Your organization has a unique information technology and business footprint. Compliance with modern industry and regulatory requirements has never been more challenging. And ensuring your organization is in full compliance with all applicable laws, regulations, and standards is a task that involves numerous members of your team.

Partnering with a compliance services firm allows clients to gain the benefit of expert security management and software without having to build – and continuously modify – capability in-house.

The compliance experts at Integrated IT focus on helping organizations secure data and ensuring compliance that is both comprehensive and yet easy to manage long-term.

SERVICES

Compliance solutions are most effective when they are configured and managed by an expert. That's why our experts partner with you to understand your business and your goals, then combine that with our industry expertise to design a compliance management program tailored to your specific situation. We ensure your solution allows you to easily maintain and also demonstrate compliance with the requirements that impact your organization.

SOFTWARE

The software solutions we use automate, manage, and track all the necessary details to maintain your compliance management program with auditability. This easy-to-use software platform serves as the historical and audit system-of-record for document approval, staff training, and the execution of all your compliance activities. You get simple scorecards and reports for full transparency into how your compliance management program is being run.

TRAINING

In addition, we ensure your compliance management program includes the right amount of practical staff training and automated activities to meet all your requirements – without creating undue burdens on your staff.

Commonly addressed laws, regulations, and standards include:

- ✓ PCI DSS / PCI ASV
- ✓ HIPAA / HITECH / HITRUST
- ✓ GDPR
- ✓ FISMA & NIST 800-171
- ✓ ISO 27001

Industries in which the Integrated IT compliance services team specialize include:

- ✓ Aerospace/Defense
- ✓ Financial Services
- ✓ Healthcare and Life Sciences
- ✓ Manufacturing
